

WEEKLY UPDATE
07/07/2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our nursing facility. We are happy to report that we currently have no confirmed cases of COVID-19 in our facility. The nursing facility consists of rooms 405 through 410 and includes all staff that work on the 400 hall. Currently we are testing all Nursing Facility staff weekly.

Harmon Nursing facility is happy to welcome visitors to our Nursing Facility. Due to infection control practices and to maintain safety for our residents, we ask that visitation be between 3pm and 7pm daily/7 days a week. With the increase in positive cases in Clark County we are unable to increase the visitation hours at this time. Specifically, scheduled visitation allows us to provide supervision, personal protective equipment and assist in infection control practices. If you are unable to visit during the scheduled hours please contact the Administrator or Director of Social Services and other arrangements will be made to accommodate visitation. Visitation areas include the dining room, the patio, and if you are in a single room (no roommate) you may have visitors in your room. Nursing Facility residents in isolation for infection are able to have visitors in the room, with the appropriate personal protective equipment provided by the facility.

Please continue to check our website www.harmonmedicalrehab.com for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 702-794-0100.

Sincerely,

June C. Cartino
